Trans Med has been a very generous and important supporter of Germaine Lawrence for two decades. The generosity of Trans Med has contributed to our ability to build two new, state-of-the-art treatment centers that provide a safe and home-like environment for troubled adolescent girls. They have also contributed items to our annual auctions that enable us to raise the funds to provide high quality treatment to the Commonwealth's most vulnerable girls.

In addition, after hearing that many of our girls and their families were not able to afford turkey dinners on Thanksgiving, Trans Med began supplying Thanksgiving dinners with all the trimmings, not only for the girls on campus, but also for families who could not afford their own Thanksgiving feast. Trans Med started this tradition in the mid-1990s and has not missed a single year. This Thanksgiving tradition puts a special smile on the faces of many people. Trans Med does not seek recognition but each year quietly brings these donations. They only asks that we make sure that everyone in need receives a special dinner.

The generosity of Trans Med over the years has made a large and sustaining difference in the lives of the children, families and staff at Germaine Lawrence.

Yours,

Pam Nourse
Director of External Relations
